

## PANTO® HERBA-LICK

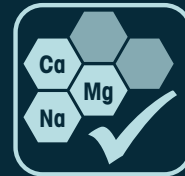

The effective herb candy for calves

The combination of essential oils from eucalyptus (cineol) and menthol as well as an active ingredient complex from plant roots and polyphenols **support** the calf with respiratory problems and **strengthen the immune system**.

Get your calves through the cold season well!

Optimal supply

Valuable ingredients

High palatability

- + High palatability has a positive effect on feed intake and helps to compensate for nutrient deficits
- + Yeast cell wall components bind toxins in the intestine and thus help to stabilize the immune system
- + Promotes employment and reduces the risk of mutual licking and sucking
